

## Deutsche Akkreditierungsstelle

### Annex to the Accreditation Certificate D-PL-14316-01-02 according to DIN EN ISO/IEC 17025:2018

**Valid from:** 13.01.2026                      **Valid to:** 12.01.2031  
**Date of issue:** 13.01.2026

**This annex is part of the Accreditation Certificate D-PL-14316-01-00.**

Holder of the Accreditation Certificate:

**Royal International Inspection Laboratory (RIIL)**  
**Labs building, Sokhna Port, Ain El Sokhna**  
**SUEZ 43511, EGYPT**

with the location

**Royal International Inspection Laboratory (RIIL)**  
**Labs building, Sokhna port, Ain El Sokhna**  
**SUEZ 133, EGYPT**

The testing laboratory meets the requirements of DIN EN ISO/IEC 17025:2018 to carry out the conformity assessment activities listed in this annex. The testing laboratory meets additional legal and normative requirements, if applicable, including those in relevant sectoral schemes, provided that these are explicitly confirmed below.

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories and they conform to the principles of DIN EN ISO 9001.

Tests in the fields:

**Selected physical, physico-chemical, chemical and microbiological tests in drinking water**

*This annex to the certificate was issued by the Deutsche Akkreditierungsstelle GmbH (DAkkS) and is digitally sealed.  
This annex to the certificate is only valid together with the written accreditation certificate and reflects the status as indicated by the date of issue. The current status of any valid and surveyed accreditation can be found in the directory of accredited bodies maintained by Deutsche Akkreditierungsstelle GmbH ([www.dakks.de](http://www.dakks.de)).*

**Annex to the Accreditation Certificate D-PL-14316-01-02**

**Flexible Scope of Accreditation:**

The testing laboratory is permitted to use standardised or equivalent test methods listed here with different issue dates without being required to prior inform and obtain approval from DAkkS (flexibilization according to category A).

Within the indicated test areas marked with [Flex B] the testing laboratory is permitted without being required to prior inform and obtain approval from DAkkS to have the free choice from standardised or equivalent test methods. The test methods listed are examples.

The testing laboratory has an up-to-date list of all test methods within the flexible scope of accreditation. The list is publicly available on the website of the testing laboratory.

**Testings of drinking water**

**1 Physical and physico-chemical tests**
